KRAKEN KOFFEE 2023 HALF-TIME REVIEW

Welcome to the 2023 Sales Review report for Kraken Koffee's NEW FLORIDA SALES REGION. In the visuals below, you will learn all about our brilliant team's performance across our three flagship stores. We'll cover insights from a range of strategic areas, pinpoint specific opportunities for improvement, and forecast the second half of 2023.

Which Karken Koffee's Products Are Driving Revenue So Far in 2023?

So far in 2023, we have observed total sales of $698,812 across 149,116 transactions.

This yields an average order size of $4.69. Average order size across our 3 new florida sotres ranges from $4.81 in Orlando to $4.66 in Tampa and $4.59

Davy Jones' Sustainably Grown Organic Hot Chocolate Lg is our strongest seller in terms of revenue but but this varies by location. For example, Jolly Roaster's Dark Chocolate Lg is our top earning product in Orlando and Civet Cat is our top earning product in our new Tampa locatin.

At What Time of Day Do Our Florida Locations See the Most Revenue?

The most popular time of day for our customers to spend money at our Florida locations is around 10 AM (No suprise - We are a coffee company, after all).

Monday is our highest revenue - generating day of the week while Saturday is our lowest revenue-generating day.

What we are noticing, however, is that our sales don't really take off until 7 AM and have all but ended by 8 PM. Combined sales before 7 AM and after 7 PM amount only to $24,836, a mere 3.6% of our total sales at this point in the year.

Accordingly, our management team is considering reevaluating our opening and closing times for all 3 of our new locations to reflect the slower wind-up of sales and the steep drop off in the evening.

$1,409,207
Full Year Sales Goal

Based on average daily sales so far in 2023, we believe $ 1,409,207 is a reasonable target for our first year of sales across our 3 Florida locations

However, this does not fully account for the great momentum that we have seen in May and June of this year. Notice on the right that average daily sales for January-March were only $2,852 while average daily sales for April-June spiked to $4,859.

If we can sustain that exceptional growth, we fell confident that our new offices can help us blow the above sales target out of the water (yes, that's a nautical pun). Even though the above number is our goal, we would be thrilled to see our 3 ne Florida offices hit our stretch goal of $ 1,592,839.
